HOW DISTANCE LEARNING WORKS

Pet Sense College distance-learning courses are designed to offer flexibility while working within the College's module deadlines and overall completion periods.

- Course modules are delivered electronically by email.
- You need reliable internet access, an active email address, and a device capable of opening and working with course files.
- Modules are released progressively rather than all at once.
- Each module must normally be completed within four months of its release, unless Pet Sense College approves an extension. You can complete the course as quickly as you like. Early submissions are accepted.
- Levels 2–4 have an overall completion period of three years. Level 5 has an overall completion period of six years.
- Assignments are completed and submitted electronically for assessment.
- Further modules are released once the previous module's academic requirements have been met and the applicable payment for the next module has cleared.

WHAT HAPPENS NEXT?

Once we receive your enquiry, Pet Sense College will provide:

1. Course information relevant to your selected course or study goal.
2. A quotation showing the applicable course fee and available payment options.
3. Information on how to enrol if you decide to proceed.

A quotation is an information and pricing document only. It does not constitute enrolment, acceptance by Pet Sense College, or a binding study agreement.

Enrolment is confirmed only after Pet Sense College has received and accepted the completed registration documentation and the required initial payment.
